Fallingwater®

Ages 16+. 811 pieces.

Designed by Frank Lloyd Wright in 1934, Fallingwater® is perhaps the most famous residential home in the world. Open to the public since 1963, this masterpiece exemplifies Frank Lloyd Wright's organic architectural style by intimately merging man with the surrounding landscape. This highly detailed LEGO® model, co-developed and designed by architect Adam Reed Tucker, captures all of the distinctive features that make Fallingwater an architectural landmark. The assembled Fallingwater model stands 10" wide on a gray base with printed name label and includes a booklet with facts about the building, its construction and its history.

NEW! Robie House

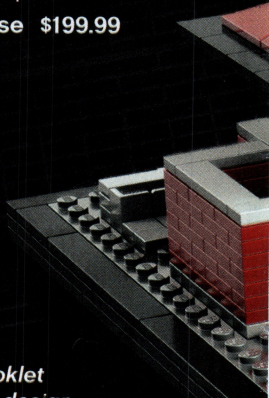

Ages 10+. 2,276 pieces.

Completed in 1910, the Frederick C. Robie House, located in Chicago's Hyde Park neighborhood, is considered to be Frank Lloyd Wright's most accomplished Prairie-style work. Prairie style is acknowledged as the first truly American style, characterized by dominating horizontal lines, banded rows of windows and spacious, open floor plans. Robie wanted a home that would provide beautiful vistas of the surrounding neighborhood while maintaining privacy for his family. Combined with the long, narrow size and shape, the views inspired Wright's vision for the 9,062 square foot residence.

NEW! Brandenburg Gate

Ages 12+. 362 pieces.

Commissioned by King Frederick William II of Prussia as a sign of peace, the Brandenburg Gate is one of Berlin's most important monuments – both as an architectural landmark and historic symbol – for over 200 years. The grandest of a series of 18 gates through which the city was accessed, the Brandenburg Gate was constructed between 1788 and 1791 from the designs of architect Carl Gotthard Langhans and was inspired by the Propylaea in Athens. Built in sandstone and comprised of 12 Doric columns, the gate's crown jewel is the Quadriga, a sculpture of a chariot and 4 horses depicting Victoria, the Roman goddess of victory, created by Johann Gottfried Schadow.
